

Make your insurance
work harder for **you**.

Let's face it — navigating the healthcare system isn't easy. In fact, it can be confusing and stressful. When you need care, you want to make the best choice possible using information about the quality of the providers and estimated cost of the medical procedures.

HealthEngine can help.

With HealthEngine you finally have a way to be a savvy healthcare consumer. You can now make your healthcare dollars go farther by knowing the approximate price you'll pay for a medical service when you select a provider.

Search for physicians, facilities and nearly 200 medical services including diagnostics (e.g. Mammogram or colonoscopy), imaging (e.g. MRI), surgery and routine medical care. Then choose how much you want to save.

WE CONNECT YOU TO QUALITY CARE AT A GREAT VALUE:

Learn more about the provider and know the estimated cost of the service before you schedule an appointment.

WE HELP YOU MAXIMIZE YOUR EXISTING BENEFITS:

We give you the information you need to make informed choices about how to spend your healthcare dollars — all within your current health insurance and in-network providers.

WE MINIMIZE THE GUESSWORK AND UNWELCOME SURPRISES:

You'll know the estimated price of a service before you receive it. We'll help you avoid surprises when you receive a bill from your physician.
